

# Disease Surveillance Skill Development Guide

## Reflection/Discussion Questions Instructions

**Instructions:** Follow these steps to review the module content

1. **Read and reflect.** Read the Review information in the Skill Development Guide and answer the reflection/discussion questions.
2. **Discuss.** Discuss your answers with colleagues and/or members of your workgroup.

## Disease Surveillance & Reporting

### Reflection/Discussion Questions

1. **Activities & Methods:** As your organization or work group performs surveillance and reports activities, what methods do you employ and for what reasons?

2. **Challenges:** What challenges does your agency or work group face in fulfilling its role in disease surveillance and reporting? How do you overcome those challenges?
